ABOUT ME

A Computer Science and Engineering Student pursuing my degree in Annamalai University . Proficient in front-end technologies such as HTML, CSS, and JavaScript, with expertise in frameworks like React .

WORK EXPERIENCE

Data Science Intern

Oasis Infobyte (March 2023 to Apr 2023)

- Gain an understanding of the fundamentals of data science. Develop your programming skills in Python, which is widely used in the data science field. Learn advanced data manipulation techniques using Pandas.

Front-end Intern

iNeuron.ai (Jun 2023 to Apr 2023)

- Developed and maintained E-commerce websites using HTML, CSS, JavaScript and ReactJs. This program will provide you with valuable experience and enhance your employability as a frontend developer.

PROJECT

Shopping Cart Application

I have   built an E-commerce Shopping Cart Application in ReactJS. One can view the products on the home page and add the products to cart. Also one can view the products and increment/decrement the product quantity and finally checkout.
